Cinema about present future

SEPTEMBER '26

Studio & .foundation

We are a documentary film Studio and Foundation focused on people, cultures and ideas shaping the future.

Our mission is to notice,
preserve, and carry the
present into the future.

FFF works at the intersection of three disciplines.
This is where films are born that engage audiences, build brand value and **preserve stories for future generations.**

documentary filmmaking

× **brand strategy**

× founder storytelling

We bring together three disciplines to create powerful stories:
meaning, filmmaking and brand strategy.

Documentary filmmaking

Igor Shmelev
DIRECTOR & SCREENWRITER

Shapes the direction, screenplay and film. Translates an idea into images – building the narrative, visual language and rhythm of the film.

× Brand strategy

Marina Kazakova
BRAND STRATEGIST

Leads brand strategy and marketing. Connects the film with the brand's objectives – positioning, communications and promotion.

× Founder storytelling

Ivan Ershov
STRATEGY COACH

Works with founders through coaching methods – uncovering values, strengthening the core idea and connecting the film with the present moment.

*«Every film we make begins with a search for meaning and the creation of a **BIG IDEA** that connects the brand, its audience, the present and the future.»*

«BIG IDEA»

Every film begins with the search for a big idea. The three FFF founders bring together their expertise in **Documentary Filmmaking × Brand Strategy × Founder Storytelling** to create a story that connects the founder, the brand, its audience and the world it exists in. *This idea becomes the foundation of the film's narrative and visual language.*

«FESTIVAL FILM»

We transform a company's narrative into a story that matters beyond the brand itself — to culture and to the time we live in. By uncovering a universal human idea within the brand, we create cinema that can engage a wider audience and move beyond corporate communications. *Every film is created with the potential for international festival distribution.*

WHAT THE CLIENT & BRAND GAIN: Legacy • Reputation • Brand Asset • International Reach • Festival Distribution
• Stronger Corporate Culture • Stronger Founder Brand

ONE ECOSYSTEM. ONE MISSION. **TWO DIRECTIONS.**

*COMMERCIAL DIRECTION

fff

Studio

Brand films for companies with a big idea,
strong leadership and influence.

*CULTURAL DIRECTION

fff

Foundation

Independent documentary films for future generations,
supported by patrons and family foundations.

Studio

We create films for companies that capture the brand's story and uniqueness while revealing the personality of its founder.

Brand films strengthen the brand's reputation and value through powerful storytelling, human narratives and a distinctive visual language.

A brand film becomes a long-term corporate asset for communications, HR, PR, investor relations and internal teams.

Studio

01

Development

2 MONTHS

Brand and founder research. Development of the **Big Idea** and narrative architecture. Project roadmap and production planning.

02

Production

3–4 MONTHS

Filming and interviews. Capturing documentary observations. Creating the film’s core visual material.

03

Post-production

2 MONTHS

Editing. Color. Sound. Music. Final narrative. Master film and trailer production.

04

Release

12+ MONTHS

Private premiere. Festival strategy. PR campaign. International festival distribution.

Each stage creates communication value:
teasers • production diaries • trailer • private screenings • PR assets • festival story.

и “Джеки Чан”»

Foundation

WHAT DO WE FILM?

Documentary films about culture, technology, architecture, education, new ways of living, ideas and contemporary society.

WHY DO WE FILM?

We create films not for the news cycle, but for the future — preserving the present as a legacy for future generations.

HOW DO WE FILM?

Our process is research, expedition and visual storytelling — so that 30, 50 or 100 years from now, people can see the ideas that were shaping the world today.

Foundation

DOCUMENTARY LEGACY FOR FUTURE GENERATIONS

We create films that begin with a **Big Idea** and become part of our cultural legacy. Our goal is to create **40 films by 2037** — about people and ideas that have shaped our time.

~4 ~40

FILMS PER YEAR

FILMS OVER 10 YEARS

Foundation

TRANSPARENCY

The Foundation operates with a clear structure: financial framework, annual plan, and transparent allocation of funds between production and the team.

A clear Foundation structure with annual reporting.

PRESENCE

Patrons become part of the process with a real presence: credits, status, and access to the filmmaking process.

A contribution to – and participation in – creating a cultural legacy.

INTERNATIONAL REACH

Every Foundation film is developed for international festival distribution and a public life beyond its country of origin.

Participation in a global cultural dialogue.

ACCESS

Each year, the Foundation hosts private screenings of its documentary films for its community.

A community of leaders shaping the future today.

We invite you to become part of creating the documentary legacy of our time.
